5.5 Basic Life Support

OBJECTIVE:

To ensure appropriately trained staff are available in the event of an emergency at all times when patients are present in the office.

PROCESS/PROCEDURE:

All clinical staff are required to maintain AHA Basic Life Support certification. AHA Basic Life Support training will be offered at no cost to employees every two years.

A Basic Life Support certified staff member must be on-site at all times when a medical office is open. If no trained staff are on location, the office must remain closed with the front door locked.
