Policies and Procedures

Subject: Transportation	Policy #: 4.20
Prepared by: CEO	Revision #:
Approved by: Board of Directors	Effective Date:

4.20 Transportation

It is important to the Center that transportation issues not be a barrier to care. To address that, should a healthcare provider deem it critical to care that a patient keep an appointment, and the patient states that transportation of any type is impossible to obtain, and, due to undue hardship, does not have enough funds to pay the subsidized and nominal fees of the Mountain Area Transportation System (MATS), our local public transportation, the Center will authorize MATS to charge the Center for the patient's transportation.
